SWAP N' SELL
NEWS BULLETIN
1569 WABASH AVE.
SPRINGFIELD, IL 62704

March
1960 copies
out 1961
including front page
15 pages
3 1/2" x 9" (print)

Dear Members,

The Club effort to date looks very good. We have 66 members as of today and the applications are coming in at three to five per day. We now have enough money to pay for the first publication and to fund this issue.

My goal is to reach at least 300 members to make the Club work it's best. That figure works best for printing expence and postage. It also gives the members a good draw to find the parts & techinal help it takes to restore your cars. I am going to launch an all out membership drive to reach this goal. I need all of your help to achieve this. Please encourage anyone you know that owns a 37 or 38 Buick to join our effort. I will be running small Ads in some of the Trade books to encourage members. Our real problem today is we have the money to publish this issue but not enough people to mail it to. Bulk mailing rates require that you mail 200 pieces minimum. Until we get the membership up I am going to go ahead and print 350 copies and mail the members their copies first class at 54¢ ea. (bulk rate is 10.4¢) As the inquiries come in I will send them out in hopes of new members. So please push this effort so next month we can print and send them at the bulk rate.

Of the 66 members so far only about ten sent in anything to publish. Please if you don't give me things you want to buy, sell or trade we will be in trouble. I would like to see some interesting stories on your cars. We need some pictures of your cars and copies of advertisements for our Buicks. I don't need the original Ads, just good black & white copies. If you have some rare books or Ads, send me copies so we can all share them.

Well enough for the preaching.. lets get on with the book.. Enjoy

Dave Lewis

1569 WABASH AVE.
SPRINGFIELD, IL 62704

Buick Club Information:

Membership Requirements;

Be the proud owner of any model 37 or 38 Buick or seeking one.

Dues must be paid currently

Written participation in some form

Understand the Club is Solely formed for the preservation of 37-38 Buicks and to aid others in their restorations of these cars.

Membership is restricted to individual basis. Members may be involved in commercial ventures but, Free Advertising is restricted to individuals only.

Advertising Rates;

Members Free up to one Full Page. Pictures \$4.50 ea. extra.

Commercial; \$20.00 per half page
\$35.00 per full page
\$10.00 per Quarter page

This applies to Members selling for a profit and non member companys.

Please... Include exact description and prices. include your phone numbers at home or where ever you can be reached the easiest. 40 year old parts are best described over the phone. I would also like members to give each other a satisfaction, Money Back, Guarantee to each other. All freight charges to be the responsibility of the buyer (Both Ways) There is nothing worse than buying a part that is in worse condition than the part you already have. As a seller myself, I have found it helps if the buyer tells me if he has no part at all or if he is up'grading what he has. This makes a big difference.

Vendors serving our interest; I will publish any Vendors Name & Address and their services or parts one time No Charge.

Please.. Members & commercial Vendors.. Restrict your Advertising to 1937 and 1938 Buicks. They are our only interest. Use the Bugle & Hemmings for all other Cars & Parts.

Thank You,
Dave Lewis
Dave Lewis

Member Letter..Thanks Jim, I appreciate your letter. I agree with you on the requirement to join the Club. Consider the rule changed. Can anyone help Jim on his questions?

Dave

1569 WABASH AVE.

SPRINGFIELD, IL 62704

January 14, 1981

Dave Lewis
1569 Wabash Ave.
Springfield, Ill. 62704

James R. Boutell
31716 Staman Circle Drive
Farmington Hills, Michigan 48018
(313) 478-9448

Dear Dave,

Enclosed is my check for \$20.00 for membership in the 37-38 Buick club. I think what you are doing is great. I have read your first issue and enjoyed it very much. I think restricting membership to owners of 37 & 38 Buicks is a mistake. I wanted a 38 Buick for three years before I became the owner of one. I would have subscribed just for the cars for sale section!! I am now the more-than-proud owner of a 1938 Model 48 (2dr. Sedan, Trunk Back) in about 8 condition. On the subject of trunk floor boards, I found a 38 - 41 with good original boards. I made a pattern from them and manufactured a perfect set for my 38. If you've not seen a set of floor boards it may come as a surprise that they are in two sections divided by a H channel. I have a factory H channel but one could be made from two C channels spot welded together. The factory one was made that way. Also, factory floor boards have a 5 3/4" hole in the rear board to allow you to put air in the spare tire. These boards are made of 1/2" plywood, not hard wood as many 37-38 owners have lost points for. The part numbers of the boards I made are 12.580 - 4084462 for the front, and 4084457 for the rear. The front board will fit models 47,48,41, 67,68, & 61. The rear board will fit models 48,41,68 & 61. I would be happy to make a pattern and send it to someone who could reproduce it for others.

I have a question for your next issue. My model 48 has a mahogany steering wheel. I've been told that was standard on the larger series and a option on the 40 and 60 series. Is that true, and if so, does anyone recast the mahogany wheel. I would appreciate a sample of the hardened casting material from anyone who does this.

I have a 38 - 41 parts car which has to be parted out before next winter. Just about anything on the car can be had cheap. Send a list of needs. You mention that a source has been found for map lights for 38's. Who is this, I need one!!

I look forward to the next issue,

A handwritten signature in black ink that reads "Jim Boutell".

SWAP N' SELL
NEWS BULLETIN
1569 WABASH AVE.
SPRINGFIELD, IL 62704

Below is a copy of an interesting letter from one of our members...

Dear Dave,

Congratulations on starting the Buick Swap n' Sell. You've really taken on a big job and it will be worth it if the '38-7 owners join in. My wife and I started the AMC RAMBLER CLUB January 1980 and are still doing most of the work ourselves. There were about 500 members as of the end of 1981, which isn't too bad considering we only cover 1958-69.

We found that there were many people who were interested in taking on the job of Ad Editor for our publication, but that it has been very hard to interest anyone in something else. The reason is suspect is that Ad Editor gets the jump on everyone for parts. So, you might be able to find several people that would be willing to help you with the Ads section of Swap'nSell.

After going through two years of hand mailing we are going to try computerized labeling. I think it will save tons of time and still not cost too much. There is a fellow who advertised about four or five months ago for doing member lists and labels at a very reasonable price. I think it was around 1-2¢ per member. Really worth the cost whatever it was. Hand writing the addresses is a chore and very time consuming too, as I am sure you're well aware after sending out the first letter.

I like your idea for specializing in the '38-7 Buicks and think this will give all us owners a better chance to obtain parts and information especially since there are so many of us. The best part of it is the effort to get those non existant items made up. Prices will be high but if someone wants it that bad-it's available.

So, very best wishes for success in your venture. Here's my \$20. Once a month is quite a lot of publishing for one man on his spare time but if there isn't too much "Editorializing" it can be done once a routine is worked out. Good Luck.

Frank Wrenick #25

Response from the Editor;

Frank, Thanks for your letter. I have considered your comment as to the Ad Editor. Due to the fact I am currently involved in my own restoration and Buying and Selling Parts there is always the possibility of a "Conflict of Interest". I have considered alternatives but, at this point, until we get a larger membership, I think we will have to keep things Status Quo. I assure all members I will not in any way try to Buy Parts from any Ad until waiting at least thirty days after the members receive their Newsletter. The parts I need are few and I am running an Ad under "Parts Wanted" to secure them. As an example I need a Hood ornament for my Car. In the last issue there was one For Sale. Rather than Call about it, I published the Ad and it was sold. Everyones Ad will be published as is and with no intervention from me. Thanks for your information about your Club. I know exactly how you feel.

Dave

Report on my progress on Re Production Parts....

Floormats; For those of you that have a Front Floor Mat paid for. The project is 100% sure. The weather in Illinois is the only thing preventing me from going to the Rubber Factory to start the production. It is a 600 mile trip one way. The roads so far are very bad. I don't dare mail our \$500.00 pattern mat. I will be going soon. The new mats will be shipped from 8 to 10 weeks after I get them the pattern. Patience please. The wait will be worth it. To keep your enthusiasm up I am giving you a picture of what they will look like....

Sill Plates; I have on file 150 people that want Sill Plates. The manufacturer has been stalling me for 9 months. I have found another company to do the job. As soon as I get my samples back I am sending them to the new company. I think I can get a good price with this much volume. I need a sample of a coupe Sills. Anybody have a pair to send me. All I need them for is the length & shapes on the ends.

Running Board Mats; I have found a company that has recently finished a Mold for running board mats. I have ordered a sample to inspect. They claim they fit like a glove over our existing metal. If they are as he says, I will see what he will do for the Club on a volume purchase....

Stainless Grill Molding; I have been in contact with a company that is capable of re-producing this molding. I am now waiting on prices.

Sidemount Emblems; I have contacted a company in Taiwan to check on prices.

Runningboard insulated Radio Pads; Taiwan also...

Hood ornaments; ???? Any suggestions. One company told me 1000 min. on Q'tys. I don't think we could handle that. I'll try Taiwan...

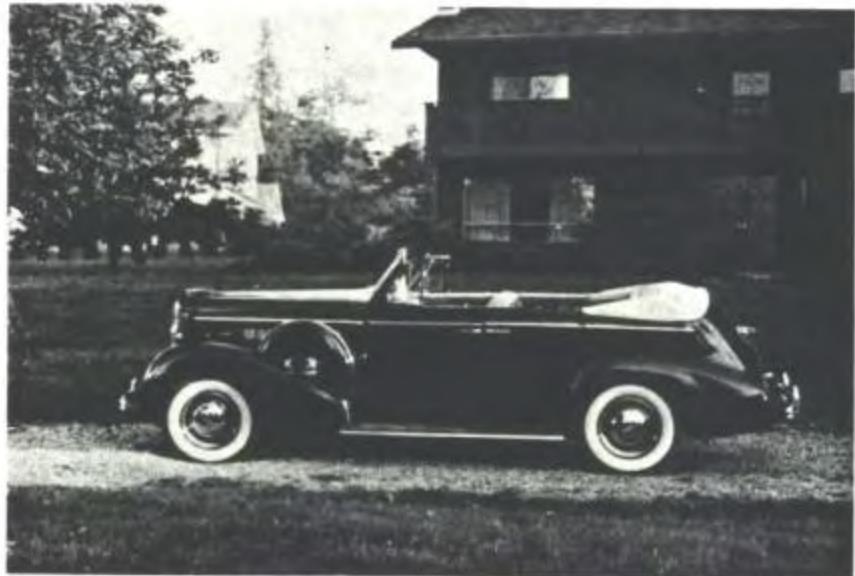

Members... If any of you can help on these, Please contact me.

Trunk Boards & Coupe Rear Boards; Don Gust #43 has expressed an interest in making these Boards. He has a pattern for the Sedan Trunk. If you are interested please contact Don. If enough interest maybe he will do them for us.

Trunk Mats; If I had an old pattern I could have these made at the same time I have the front mat made. I need a pattern for 37 trunk board Mat and 37 mat on Side Mount cars. Also need the same on 38's. The Floor looks different on 38's than on 37's. Maybe we could get one mat made with a 4 inch smooth border and trim to fit either. I need at least paper patterns of all models to make this decision. It sure would be nice to have a brown mat for the trunk to match the front floor mat.

Photo Copy.. Thanks to Dug Waggoner #10

Members, Please send photocopies of any Advertisements to share with your fellow members

Roadmaster is the name!

THESE are the statistics: Its bonnet houses 141 ready-willing-and-able horsepower.

Its swift wheels can spurt you from ten to sixty in 18 seconds flat.

From a ten-m.p.h. start at the bottom, it will swoop you over an eleven per cent hill with an easy forty-four at the top.

But the *smoothness* of its panther-like gait is something statistics can't picture; the heart-warming *satisfaction* in its eyewink answer to your treadle foot is something you can only *feel*.

The point is that it's boss of any road, with its DYNALASH engine to set the thrilling pace and its TORQUE-FREE SPRINGING to make smoothies out of rough spots.

We wish you'd try it — just to see if you can name its rival within a thousand dollars of its price.

The Buick shown is the ROADMASTER touring sedan, delivering at Flint, Mich., or \$1645, complete with standard equipment. Fenderwells, white sidewall tires and special accessories extra. There are 4 ROADMASTER models ranging in price from \$1645 to \$1983, and 3 LIMITED models from \$2176 to \$2453 delivered complete at Flint. State and local taxes if any and transportation extra.

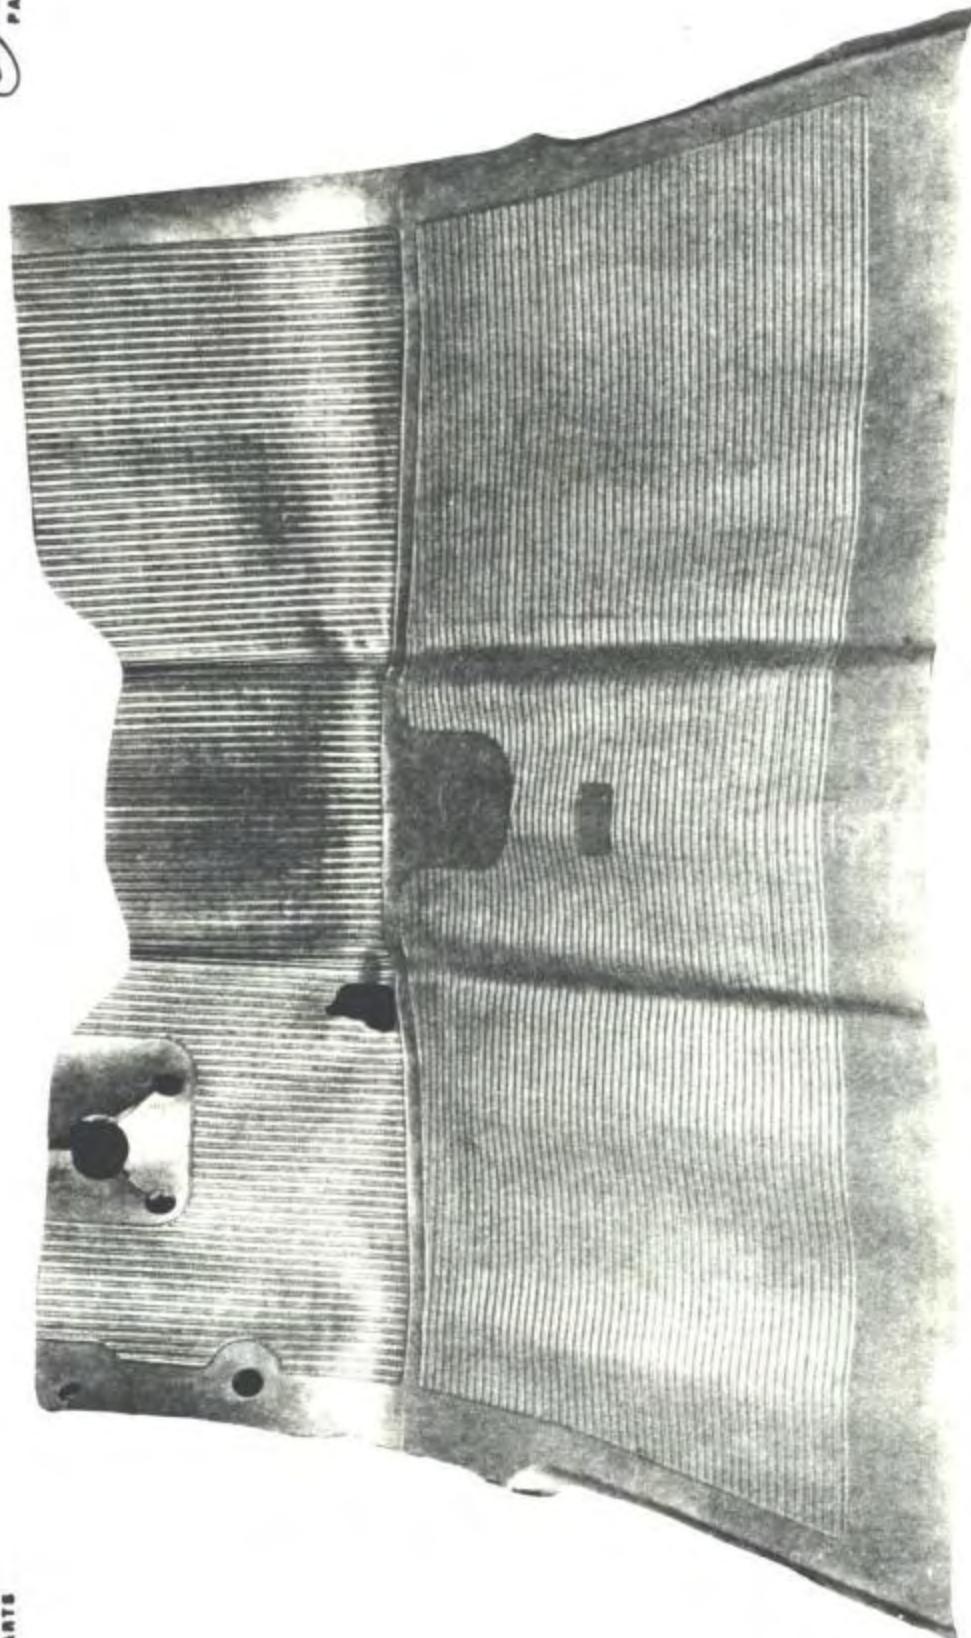

"Better buy Buick!"

A GENERAL MOTORS VALUE

Here's a sneak preview of the 37-38 Floor Mat.....Pray for a break in the weather
so I can get this pattern to the Factory.

COMINING SOON!

Well here's the list of vendors I had to pull out of the first issue because of the printing cost. Bear in mind the companys are the ones I have either dealt with in my project or have heard good things about. If you have others to add to our list...Please do. I am not telling anyone to use these companys, just letting you know where the services are available.

Technical Tips and Questions?

One Super Tip for those looking for original sidemount lock assemblies;

The Early Corvairs spare tire lock is the exact lock used on 37-38 Buick Sidemounts. It must be from the original casting as it is exact. The later Corvair locks are pot metal and look all together different.

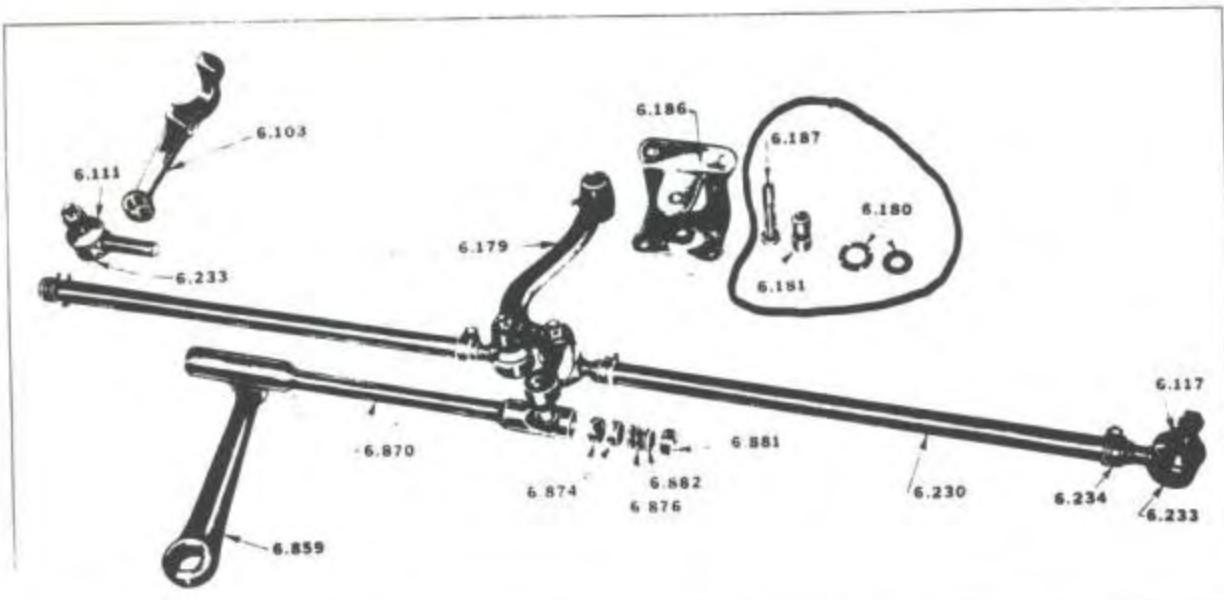

I found two for my car at a corvair repair specialist for \$15.00 each. I had them re-keyed to my cars ignition lock and they work perfectly.

Lauren Matley #49

Question for the members;

What is normal oil pressure in a 38 40 series, When 10W40 oil is used and the engine is fully warmed (170-180 deg.), and running 50MPH? (in high)

Steve DeClario#59
2 Plumtree Lane
Commack, N.Y.

I have a lot of 37 owners writing me looking for the same part.. This is a breakdown picture of the 37 steering linkage. The only part that ever wears out is the Bushing in the center. There is a kit to rebuild this. I bought one once a long time ago but, I don't remember where. Do any of the members know where we can get them. The Kit consist of:

- #6.187 Bolt (1)
- #6.181 Bushing (1)
- #6.180 Washers (2)
- # ?? Brass Sleeve (1)

FIVE-PASSENGER FOUR-DOOR SEDAN

Model No. 67, Plain back

UNITED MOTORS SERVICE
DIVISION OF GENERAL MOTORS CORPORATION

Salesman's Insert

(Use Form A-357 Anti-Friction
Bearing Data Booklet for Hand-Out)

1934-1950
BALL AND ROLLER BEARING DATA
COVERING
PASSENGER CARS and POPULAR LIGHT TRUCKS

SPECIFICATIONS

Prefixes, Suffixes, Etc.

HYATT: Specify all prefixes and suffixes connected to the bearing number with a Hyphen. RA (Roller Assembly), OR (Outer Race) and IR (Inner Race) are purely descriptive and not a part of the Part Number if NOT connected to the number with a Hyphen.

A.T.B.: "A" or "AT" prefix is a part of the part number—always show when ordering.

TIMKEN®: All prefixes and/or suffixes shown should be specified when ordering.

NEW DEPARTURE: Prefixes and suffixes printed together with bearing size number such as CT30F, HS310A, 3211-62, 47509A45, etc., indicate size differences from standard. The suffixes shown below indicate variations from standard bearing specifications as shown opposite each:

SUFFIX

L—Loose internal fit-up

T—Tight internal fit-up.

XY1 C (or XY1 A)—Special low speed noise test, "C" slush (or "A" slush).

L1214 A—Etch end play symbol on brg., "L"—loose end play, "A" slush.

X1241 A—No Snap Ring, "X"—standard internal fit-up, "A" slush.

X1250 A { No Snap Ring, special noise test. } A combination of
L1250 A { "L"—loose internal fit-up. } 1241 and 1270

X1270 A—Special test for smoothness and quietness.

X1332 A—Special limits on Snap Ring O. D. and location.

T1352 A—Special width tolerances and special noise test.

T1419 A—Special test for quietness and runout tolerance.

X1425 C—Brass slinger on long end of shaft.

S1446—Special end play tolerance, "C" slush $\frac{1}{4}$ full, and extra quiet.

X1448 G—Special tolerance long shaft length, shafts Cadmium plated.

X1468 C—Special min. limit on cone stickout beyond seal.

S1581 C—Special end play, special cone stickout limit, "C" slush.

X1756 A—Special noise test, special limits on O. D. and dimension from face of cup to far side of Snap Ring.

EXAMPLE: 47106 X1241 A is without Snap Ring—it is OK to substitute a standard 47106 if Snap Ring is removed and mechanic told to "Use Old Snap Ring." (Same true of "1250".)

Closing from the Editor...

Well issue number two is complete. This issue went a lot faster than the first. I think I am finally getting organized. I sure enjoy making this Club a reality. With a little help from my friends we will reach the 300 members it will require to go on. We have enough money left in the kitty to run some Ads to solicit more members. Please.. If you know anyone that would be interested in joining our effort.. Let me know.

Providing there is a third issue would you all please send me something to print.. We need Parts For Sale..Trade...Wanted..Technical..Advertising.. Old Ads of our Buicks...Rare Books of Parts or Accesories....Anything that we can all share. Remember, You don't have to send me the originals, Just a good black & White copy. How about a good story (typed) about your car.... All of us would enjoy a story! How about your local swap meet or coming shows?

Keep this issue as the Vendor & Member list will not be repeated. I will add to it each month. Read the Vendor list closley as there are vendors that provide 90% of the parts & services that people write me about every day.

Anyone interested in joining me in some of the reproduction projects let me know. A couple of the members have expressed an interest in the Trunk Board Patterns. We need a definate commitment so we can direct all to that person. So let's have that person step forward and anyone that has patterns can get in touch with you.

I have just about depleted everything in this issue to print.. So start sending me something for next issue. Everyone thinks the other guy will do it and therfor no one does. I'll do the work... You send me what you want to see! A special thanks to Lauren Matley & Dug Waggoner for the Articles they sent.

Hope to hear from all of you soon.....

Dave

P.S. Use the number I have given each of you in all of your letters. It will save you rewriting your name & address several times.

This is what I am working on.....
